

## Clinica™ Applicators

The Assisi Clinica Applicators are to be used with the Clinica device. The Clinica device is a non-invasive pulsed electromagnetic field (PEMF) device which is FDA-cleared for the treatment of pain and edema in soft tissue. There are three outputs for treatment of up to three sites simultaneously, either with a 6 inch or 8 inch therapy applicator. There are no daily disposables, as one set of 6 inch or 8 inch applicators an last 30+ days. The applicators can be used on a per-patient basis, so that there is no chance of cross-contamination.
